# CONNECT Workspace Setup
For MicroStation and OpenRoads Designer
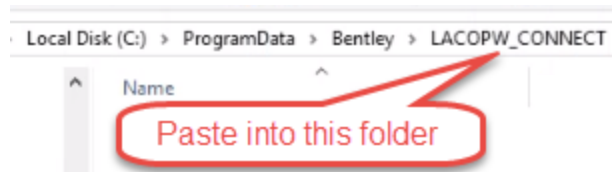

These instructions assume CADD work solely for LA County Public Works. If your organization works with multiple CADD Standards, check with your CADD administrator on how best to setup this workspace.

1. Use these instructions for the following software:
   a. MicroStation CONNECT Edition
   b. OpenRoads Designer CONNECT Edition

2. Download https://pw.lacounty.gov/nas/gis/cad/standards/LACOPW_CONNECT.zip and decompress the file to C:\

3. Copy workspace:
   a. Create this folder if it doesn't exist *C:\ProgramData\Bentley\LACOPW_CONNECT*. If it exists, delete contents inside.
   b. From the location:

      C:\LACOPW_CONNECT

      Copy the "***Configuration***" folder:

   c. Paste into *C:\ProgramData\Bentley\LACOPW_CONNECT*

4. Copy "***Bentley***" folder from one of the locations below:
   a. From the folder:

      C:\LACOPW_CONNECT\RIP-add-on-folders\64-bit\ProgramData

b. Paste to the root of **C:\ProgramData** (this is a hidden system folder) and select "*Replace the files in the destination*" if prompted.

5. Create this folder if it doesn't exist *C:\MyFiles*
